KOC hosts the 6th of November celebration

Organized by the Kuwait Environment Protection Society in cooperation with the Ministry of Foreign Affairs

KOC hosted the 6th of November Celebration of extinguishing the last oil well, and the International Day for Preventing the Exploitation of the Environment in War and Armed Conflict, which was organized by the Kuwait Environment Protection Society in cooperation with the Kuwaiti Ministry of Foreign Affairs under the slogan "In the wake of the oil disaster, is the rehabilitation of lands affected by oil pollution", at the Ahmed Al-Jaber Oil and Gas Exhibition in Ahmadi.

The ceremony was attended by Deputy Foreign Minister for International Organizations Affairs Counselor Abdulaziz Al-Jarallah, representative of the sponsor of the celebration, His Excellency the Minister of Foreign Affairs Sheikh Salem Abdullah Al-Jaber Al-Sabah, a number of ambassadors and diplomats to the State of Kuwait, representatives of Ministries, official bodies, and institution, UN organizations, and invited guests.

At the beginning of the celebration, Al-Jarallah gave a speech in which he stated that the adoption of the International Day by the United Nations was a Kuwaiti initiative, out of Kuwait's belief in the necessity of engraining the values of protecting the environment.

Team Leader Soil Remediation Projects-I Najeeb Al-Zaid, on behalf of Ag. CEO KOC

Khalid Al-Otaibi, delivered a speech in which he thanked everyone who contributed to extinguishing the oil wells, recalling the heroism and sacrifices of the members of the teams that contributed to extinguishing the fires, and stressing the need to learn lessons from what took place.

Al-Zaid also touched on the Company's cooperation with a number of parties in the Environmental Remediation Program, and thanked them for their efforts.

This was followed by two speeches, from the Chairman of the Board of Directors of the Kuwait Environment Protection Society Dr. Wejdan Al-Uqab, and representative of the United Nations, Mazen Abul-Hassan.

Afterwards, Al-Zaid, Team Leader Soil Remediation Projects-II Muthanna Al-Mumin, Senior Environmental Engineer Aisha Al-Baroud, and Engineer Samira Al-Kandari from the Environment Public Authority, gave presentations on the rehabilitation of the environment, and the Environmental Engineers team of the Environment Authority was launched.

At the conclusion of the celebration, honorary shields were distributed to the participants, and a tour of the Ahmed Al Jaber Oil and Gas Exhibition was organized for them.

Kuwait's Harvard Club hosts KPC CEO

An amicable atmosphere inspired friendly and constructive discussions

In a distinguished event, during which Sheikh Nawaf Saud Al-Sabah, CEO of the Kuwait Petroleum Corporation, was hosted, Harvard Club of Kuwait held its annual meeting for the members of the Harvard Alumni Club, with the attendance of DCEO Planning and Finance at KOC, Bader Al-Attar.

Vice President and member of the Club's Board of Directors, Engineer Nadia Al-Zeabot, organized the meeting, which was held at the Ahmed Al-Jaber Oil and Gas Exhibition, and it was an opportunity for Club members to discuss many topics with Sheikh Nawaf Al-Sabah.

The discussions of the Club's Alumni members with Sheikh Nawaf

were fruitful and constructive, and took place in a friendly atmosphere, resulting in the benefit of all the attendees.

The Harvard Alumni Club was established in Kuwait in December 2018, joining the 88 Harvard University clubs around the world, and it includes high-ranking personalities from all economic and commercial sectors in Kuwait.

It is noteworthy that Al-Zeabot is a Senior Planner in the Company's Innovation and Technology Group, and has been a member of the Club's Board of Directors since 2019, and is currently serving her second term in membership.

KOC signs three Consultation Contracts with International Companies

They provide important services for the development of strategic projects implemented in the Company

KOC signed three contracts with three international project management consulting companies to provide consultation services in the initial engineering and design works, in the Company's Main Office.

The first contract was signed with Kellogg Brown & Roots Limited, the second with Worley Europe Limited, and the third with Technip E&C Limited.

The signing ceremony was attended by then-Acting CEO Khalid Al-Otaibi, DCEO Commercial & Corporate Services Abdul Wahab Al-Mithin, DCEO Gas & Innovation Bader Al-Munaifi, DCEO North Kuwait

Ali Al-Kandari, and a number of Group Managers, Team Leaders, and representatives of contracting companies.

Al-Otaibi delivered a speech in which he welcomed the attendees, and congratulated the representatives of the winning contracting companies, considering that the three consultancy contracts provide important services that the Company needs to develop the projects being implemented within the framework of its Strategy.

Afterwards, the three contracts, which will provide consultations for the Company's major projects over a period of five years, were signed.

KOC organizes the Medical Technology Exhibition

Over 22 companies working in the health and medical technology fields participated

Under the patronage of DCEO Admin Qusai Al-Amer, the Medical Technology Exhibition was held, organized by the Health Info Management Systems Team in Ahmadi Hospital, in cooperation with the Public Relations Team.

The inauguration of the three-day exhibition was attended by Al-Amer, alongside Manager Public Relations & Information Group Mohammed Al-Basry, Manager Training & Career Development Waleed Al-Rubaian, and Manager Medical Group, Dr. Emad Al-Awadh, in addition to a number of Team Leaders, Heads of Departments, and employees.

Al-Amer and the attendees toured the exhibition held at the KOC Tent in Ahmadi, during which he inspected the exhibition sections run by over 22 companies working in the health and medical technology fields. He also spoke with representatives of the exhibiting companies, and listened to explanations of the products they are promoting.

The Exhibition witnessed a good turnout of employees, where the first day of the exhibition featured a number of presentations, including one by Team Leader Health Info Management Systems Samah Al-Duwaisan, while the exhibition's activities held over a course of three days were coordinated by HIMS Officer, Badreyah Al-Haqqaan.

Jurassic Gas Technology Day in the North Kuwait Operations Area

Organized by KOC in cooperation with Shell and highlighted successes and lessons learned

With the attendance of DCEO Gas & Innovation Bader Al-Munaifi, Manager Gas Fields Development Group Moudi Al-Ajmi, and a number of Managers, Team Leaders, and concerned employees, the North Kuwait Jurassic Gas Technology Day was held in partnership with Shell.

The workshop, which was held at the Hilton Resort, had multiple objectives, including maximizing learning and knowledge sharing from the North Kuwait Jurassic Gas asset's technology maturation and implementation successes and lessons, demonstrating and documenting the significant value added through technology and innovation, and presenting the asset's technology plan to improve alignment between KOC's assets and functional teams and identify any synergies and cooperation opportunities.

The event opened with a speech from Al-Munaifi, where he thanked everyone who worked to make it happen, and stressed the importance of

the human element, and that serving the oil sector is a national responsibility. This was followed by a speech from Al-Ajmi, who stressed that technology is very critical for our Company and Gas assets to achieve their goals, adding that production in gas assets has witnessed a great and rapid growth thanks to technology.

Shell representative Manager of ETSA Contract Project Peter Jensen then took to the stage, praising the partnership between KOC and Shell, while also reviewing the journey Jurassic Gas has experienced with technology. This was followed by a number of presentations on success stories that showed the extraordinary and continuous effort of young Kuwaiti employees in acquiring new skills and knowledge to improve the work towards reaching the production target.

At the conclusion of the event, Al-Munaifi encouraged all the presenters to be sure to continue developing themselves, as well as empowerment in the work field.

Workshop with Shell to discuss the Gas Production Capacity Roadmap

It aims to achieve a level of approximately 950 million cubic feet by 2024

In the presence of Manager Gas Fields Development Group Moudi Al-Ajmi, KOC organized a workshop with Shell to discuss a road map for achieving a gas production capacity estimated at 950 million cubic feet by 2024, as well as for the launch of the eighth and ninth annual plans for Jurassic Gas in North Kuwait in cooperation between the two companies.

The event was attended by Team Leaders in the Gas & Innovation Directorate, and managers from Shell, as well as a large number of employees from the Drilling, Drilling Engineering, Well Surveillance, Gas, Production, and Innovation Groups.

In her opening speech, Al-Ajmi emphasized the importance of

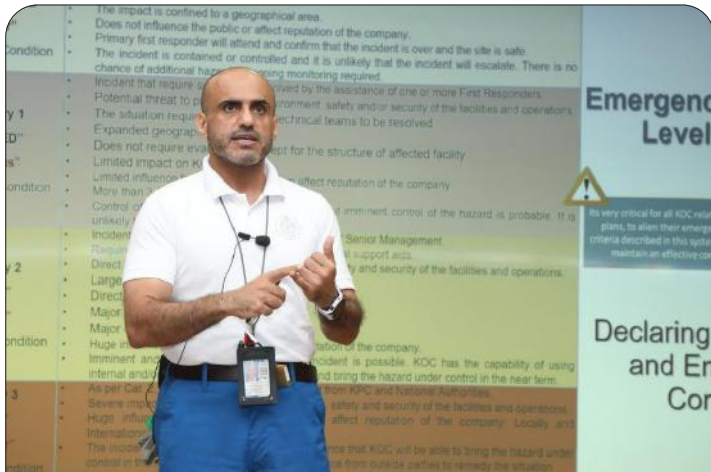

achieving the goal of producing 950 million cubic feet of gas, followed by presentations on the achievements that have been made within the framework of the Enhanced Technical Services Agreement for Gas during the past years, as well as visual presentations on future plans, results, and expected achievements for the next two years within the framework of the Agreement.

After that, discussion sessions were held to exchange ideas in an effort to increase gas production, with the aim of achieving the Company's Strategy regarding production, and developing a plan for the next two fiscal years 2023-2024, then 2024-2025.

Training Course for Fire Controllers in the Major Projects & Technical Services Directorate

Aiming to familiarize them with roles and responsibilities to ensure safety of buildings

As part of the strive to fulfill safety and security requirements in the Company's buildings, the Technical Personnel Development & Admin. Team of the Projects Support Services Group organized a training course for fire controllers.

The event, which was held in the Auditorium of the Company's Megacomplex in Ahmadi, was attended by Team Leader Nada Al-Qallaf and a number of the team's employees, in addition to numerous employees of the Major Projects & Technical Services Directorate and contractor workers.

The course, which will be organized annually, during which Team Leader Organization Resilience Nasser Al-Buhairi gave a visual presentation, aims to familiarize fire controllers with their responsibilities and the tasks assigned to each of them, as well as building safety, and how to evacuate it in the event of a fire in the Complex.

The session witnessed a distinguished interactive participation from the attendees, where Al-Buhairi answered their questions and inquiries, and Al-Qallaf concluded by thanking the lecturer and the attendees for their interest.

"Be a Life Saver" First Aid Campaign in North Kuwait

Held in coordination with Ahmadi Hospital over a month and included workers in the fields

The HSE Team (North Kuwait), in cooperation with the Human Resources Team (North Kuwait), organized a First Aid Campaign under the title "Be a life saver", held in coordination with Ahmadi Hospital, over the course of one month.

The Campaign, which was supervised by Team Leaders Majed Al-Mutairi and Mannaa Al-Ajmi, included all the Company's employees in Al-Rawdatain, Al-Ritqa, and Ahmadi fields, and witnessed a distinguished participation from the attendees who interacted with what was presented by the paramedics accredited by Ahmadi Hospital.

North Kuwait Directorate sought to achieve several goals from this

Campaign, including educating employees and reinforcing First Aid procedures, contributing to the renewal of the licenses of certified paramedics, and coordinating the adoption of new paramedics in the Directorate.

The Campaign, which witnessed cooperation with the Medical Services Group that provided its accredited lecturers, aimed to educate and remind employees of First Aid and to recognize its importance. It also encourages all Company employees to review First Aid procedures on an ongoing basis, as this plays a critical role in saving the lives of others inside and outside work.

KOC hosts the 6th of November celebration
