KOC Hosts Meeting on the "Green Kuwait" Campaign

KOC & Weatherford Digital Journey Event

Attended by the CEO, and held under the slogan "A Proven Partnership Ready for the Next Challenge"

With the attendance of CEO Ahmad Jaber Al-Eidan, KOC held a joint event with Weatherford dedicated to reviewing their longstanding partnership, with a focus on their shared digital journey.

The event was held at the Waldorf Astoria Hotel, and also attended by Deputy CEO Commercial & Corporate Services Musaed Al-Rasheed, Deputy CEO Exploration & Drilling Khaled Al-Mulla, Deputy CEO Planning & Innovation Mohammad Al-Abduljaleel, Deputy CEO South & East Kuwait Fuad Al-Shaikh, and Weatherford CEO Girish Saligran, along with several executives and high officials from both companies.

Held under the slogan "A Proven Partnership Ready for the Next Challenge", the event featured a brief speech from Al-Eidan, in which he stressed the depth of the partnership between the two sides and his ongoing commitment to enhance cooperation.

The event opened with a speech from Saligran, who praised KOC for its ongoing partnership and trust in Weatherford, calling it one of the largest global players in its field and expressing his pride to collaborate with it, as well as his gratitude towards its Higher Management. He also assured KOC of his company's ongoing commitment to provide the best digital services and solutions.

This was followed by a series of presentations from Weatherford specialists, headed

by Saligran, which mainly focused on digitization and AI, and the various investments, outlook, actions, and progress made in this area from both companies. Weatherford also presented its Digital Transformation Strategy, Technology Roadmap, successful journeys with KOC, and ongoing engagements and projects with KOC, including its close collaboration on the unique KWIDF project, all of which saw an engaging discussion among all executives present.

The event concluded with an exchange of appreciation awards in recognition of the hard work made by both sides in the aforementioned areas.

Closing Ceremony for the Gas Processing Engineers Training Program

Organized by KOC in cooperation with KU, with the participation of engineers from three K-companies

In the presence of DCEO Admin & Finance Qusai Al-Amer, and DCEO Gas & Environment Ameena Rajab, the closing ceremony for the first and second batches of the Integrated Training Program for Natural Gas Processing Engineers was held. This is the first specialized program of its kind in the oil sector, organized by KOC in cooperation with Kuwait University.

The ceremony took place at the Sabah Al-Salem University City, College of Engineering & Petroleum in Shadadiya. It was also attended by a number of senior officials from both the Company and the University, including Manager Training & Career Development Group Bashar Al-Khashti, Manager Gas Operations Group Hamad Al-Zuwayer, Dean of the College of Engineering & Petroleum Professor Khaled Al-Hazza, Assistant Dean for Planning, Consulting, & Training Dr. Mabkhout Al-Dosari, and Assistant Dean for Academic Affairs Dr. Abdullah Al-Ajmi.

The event featured speeches by Dean Dr. Al-Hazaa and Al-Zuwayer, followed by a tour of the participants' scientific posters. Certificates were then

distributed to the graduating engineers from both batches, and a tour of the college campus and laboratories was conducted.

The program, led by the Training & Career Development and Gas Operations Groups, includes inspection and study visits to gas and liquefied natural gas (LNG) manufacturing facilities at KOC, KNPC, and KIPIC. It concludes with the presentation of projects and research by 33 trainees from all KPC subsidiaries, under the supervision of university faculty.

During the program, faculty members and engineers conduct field visits to several KOC sites, including Gas Booster Stations and Gathering Centers, where informative presentations are delivered to the attendees.

This program reflects KOC's commitment to developing and enhancing the efficiency and capabilities of its employees to improve workflow and productivity, as well as its keenness to collaborate with specialized academic and scientific institutions.

DCEO S&EK Honors Elite Employees in the Directorate

He praised their outstanding performance and dedication in implementing several projects and initiatives

DCEO S&EK Fuad Al-Shaikh honored a number of outstanding employees from the Directorate, under the slogan "Ideal Employee for the Year 2024-2025."

The honoring ceremony took place on the sidelines of the Directorate's performance review meeting for the final quarter of the 2024-2025 fiscal year. The Deputy CEO praised the honorees for their exceptional performance, dedication, and tireless efforts in implementing all projects and initiatives.

Al-Shaikh also reaffirmed the Higher Management's commitment to providing full support to employees and enhancing partnerships with

contractors to achieve KOC's strategic goals and objectives.

The honored employees were: Amal Al-Mutairi (Operations Group - South Kuwait), Mohammed Al-Bakr (Operations Group - East Kuwait), Zainab Masoud Salem (Operations Support Group - South & East Kuwait), Shaima Al-Saffar (Field Development Group - South & East Kuwait), Salah Mubarak Al-Azmi (Drilling Group - South & East Kuwait), Hussein Al-Abedin (Export Group), Haitham Abdulaziz Sheneber (Offshore Operations Group), Mohammed Abdulghafour (Offshore Operations Support Group), and Jaafar Yadikar (Planning Team - South & East Kuwait).

KOC Honors Former Career Development and CMK Managers

DCEO Admin & Finance commended their exceptional efforts

In a gesture of appreciation that reflected loyalty and pride in their sincere efforts, KOC honored former Manager of the Training & Career Development Group, Waleed Al-Rubaian, and former Manager of the Contract Manpower Kuwaitization Group, Adel Al-Ansari, in recognition of their dedication and service throughout their tenure with the Company.

The honoring ceremony took place on the sidelines of the periodic Admin & Finance Directorate meeting, and was attended by all Group Managers. During the event, DCEO Admin & Finance Qusai Al-Amer commended Al-Rubaian and Al-Ansari for their outstanding contributions, which played a key role in enhancing performance, developing workflows, and achieving notable accomplishments.

This recognition aligns with the Company's ongoing commitment to honoring the leaders and experts who have played significant roles in its continued success.

Manager Training & Career Development Visits Burgan Fire Training Center

He was briefed on the Group's role in preparing training programs

Manager Training & Career Development Group Bashar Al-Khashti, accompanied by several Team Leaders, conducted a field visit to the Fire Training Center in Greater Burgan Field.

The delegation was received by TL Fire Support Services Ali Al-Kankoni, who explained the importance of the center to firefighters. He also highlighted the essential role played by the Training & Career Development Group in developing refresher training programs that keep pace with global advancements in firefighting.

The delegation included Al-Khashti, TL Career Development (Surface) Riyadh Al-Enezi, TL Career Development (I) Khaled Al-Aslawi, TL Career Development (II) Anfal Al-Shaalan, TL Career Development (III) Abbas Hamza, and Ag. TL Career Development (Subsurface) Maqhim Matar, in addition to Senior Training Officers Yousef Al-Azmi and Mohammed Al-Hajri.

KOC Hosts Meeting on the “Green Kuwait” Campaign

Held under the patronage of the Undersecretary of the Ministry of Oil, where over 150 trees were planted

Under the patronage and with the attendance of the Undersecretary of the Ministry of Oil and sponsor of the “Green Kuwait” Campaign, Sheikh Dr. Nimr Al-Sabah, along with the Assistant Undersecretary for Technical Affairs at the Ministry and Head of the “Security & Environment: A Shared Responsibility” initiative, Eng. Khaled Waleed Al-Deyain, KOC and the Ministry of Oil held their Yearly High Leadership Meeting as part of the “Green Kuwait” Campaign.

The event, hosted by the Company under the slogan “Security & Environment: A Shared Responsibility” at KOC’s Ahmadi Oasis, was also attended by Manager HSE Group Faisal Mirza, TL Organization Resilience Nasser Al-Buhairi, and several concerned employees from both sides.

The meeting aimed to raise awareness about reducing the environmental impact of oil production. It opened with a brief speech from Sheikh Dr. Nimr Al-Sabah, who stressed the importance of this initiative, which aligns with Kuwait’s commitment to combat climate change, and highlighted the shared responsibility in addressing environmental issues. He also expressed his appreciation to KOC for its ongoing cooperation in all areas.

Eng. Al-Deyain followed with a speech in which he emphasized the Ministry of Oil’s efforts to achieve sustainable environmental development in line with Kuwait Vision 2035. He also expressed his gratitude to the Undersecretary for his sponsorship, highlighting it as a testament to the Ministry’s strong commitment to environmental issues. He noted that the campaign reflects the Ministry’s dedication to both security and environmental concerns, aligning with Kuwait’s national visions and strategic objectives. He also confirmed the continuation of similar initiatives that promote environmental awareness, which stems from investing in national talent.

The event featured a joint presentation from both sides, showcasing their collaborative achievements which reflect a spirit of teamwork and collective national efforts. Topics covered included Digital Transformation, Human Resources Development, and added value in Crisis Management.

During the event, more than 150 trees were planted in Ahmadi Oasis, helping to mitigate environmental damage caused by oil operations. This initiative supports Kuwait’s broader efforts in cooperation with the United Nations Human Settlements Programme (UN-Habitat).

KOC Hosts KGOC Delegation

The visit included a field tour of the Export Operations Control Center

KOC, represented by the Export Operations Group, hosted a delegation from Kuwait Gulf Oil Company (KGOC), which included several officials and specialists.

The visit was supervised by Manager Export Operations Group Abdulkarim Al-Mutairi, while the visiting delegation included Manager Terminal & Export Mohammad Al-Dousari, and TL Mechanical & Electrical Maintenance Nawaf Al-Harbi, along with several concerned engineers.

The delegation was taken on a field tour of the Export Operations Control Center, where its members were briefed on the latest technologies and systems in place. They also listened to a detailed explanation by Al-Mutairi about the Company's export operations. This was followed by a presentation delivered by Ag. TL Export Operations Abdullah Al-Hashash, which addressed various aspects of the export operations control system and the latest technologies adopted.

Senior Supervisor Mohammed Al-Abkal also gave a detailed explanation of the operational mechanisms in the Export Operations Control Center and how to coordinate between the various systems to ensure smooth operations.

This visit comes within the framework of enhancing cooperation and exchanging expertise between the two sides, which contributes to raising and improving operational efficiency and developing export operations systems.

Meeting to Discuss the Use of Drilling Fluid in Offshore Drilling

Held between the Local Relations Team and the EPA, where follow-up procedures were agreed on

Held between the Local Relations Team and the EPA, where follow-up procedures were agreed on

The Local Relations Team held a coordination meeting with the Environment Public Authority to discuss the use of oil drilling fluid in emergency situations within the offshore exploration drilling project.

The meeting was chaired by TL Local Relations Abdulaziz Hamada, and attended by TL HSE & Drilling Excellence & Workover Abdulaziz Al-Rushoud, TL Drilling-I (S&EK) Dakhil Al-Enezi, along with several officials and specialized engineers from the three Teams.

At the start of the meeting, Hamada welcomed the attendees and thanked them for accepting the invitation. This was followed by a presentation delivered by Senior Drilling Engineer from Drilling Team (31) Ahmed Al-Jalahma, who briefly outlined the offshore drilling project and its importance. He also explained the role of drilling fluid, its uses and benefits, and highlighted areas for coordination and cooperation on this matter.

It was agreed to maintain ongoing coordination on the matter, with KOC to provide the Environment Public Authority with a detailed report on the drilling fluid and its applications. Additional meetings will be held in the future if necessary.
