KOC Conducts Fifth Preparatory Meeting for the Kuwait Oil & Gas Show (KOGS)

Discussing organization and logistics, key scientific themes, and the media and marketing strategy

The Higher Executive Committee for the 5th Kuwait Oil & Gas Show and Conference (KOGS 2026) held its fifth coordination meeting as part of the preparations for the event, which will be hosted by KOC in February 2026.

The meeting, held at the Ahmad Al-Jaber Oil & Gas Exhibition, was chaired by KOC's CEO Ahmad Jaber Al-Eidan, with the participation of all committee members, including executives from oil sector companies and global partners, as well as a number of academics from various universities and institutes, and members of the Technical Committee headed by Manager Gas Fields Development Group at KOC, Mohammed Al-Bahar.

The meeting discussed various organizational and logistical aspects of the confer-

ence, reviewed the scientific topics, and examined plans related to media and marketing. It also addressed all matters that would ensure strengthening regional and international attendance at the four-day event, scheduled to be held from February 2 to 5.

The conference and its accompanying exhibition, both hosted by KOC, are considered among the most prominent specialized events in the region's oil and gas sector, combining an exhibition with a technical conference. They attract an elite group of experts and industry leaders to discuss the latest developments and innovations in energy, sustainability, modern technology, and digital transformation in the upstream sector.

CEO Receives UK's Trade Envoy to Kuwait, Jordan and Palestine

Both sides reaffirmed their commitment to strengthen their strategic cooperation and pursue joint projects

KOC CEO Ahmad Jaber Al-Eidan received UK's Trade Envoy to Kuwait, Jordan and Palestine, Lord Iain McNicol of West Kilbride, in his office at the Company's Headquarters in Ahmadi.

Lord Iain McNicol's visit, where he was accompanied by Country Director at the British Embassy's Department for Business and Trade Naz Demir, came within the framework of the longstanding partnership between Kuwait and the UK, focusing on strengthening joint business efforts.

During the meeting, which was also attended by Ag. Manager Projects Engineering & Support Group at KOC Mohammad Al-Adwani, and TL Projects Management-II (S&EK) Mohammad Al-Qahtani, discussions centered on the role of British expertise in supporting and advancing KOC's major projects and long-term goals, particularly in technology.

Both sides expressed their commitment to advancing this strategic cooperation and exploring new opportunities for shared projects.

KOC Organizes Event on Enterprise Risk Management

Attended by several K-company officials, and hosting two prominent speakers

Under the patronage and in the presence of KOC's CEO, Ahmad Jaber Al-Eidan, and attended by several DCEOs, as well as participants from other K-companies and Kuwait University, KOC held the Speak ERM event, dedicated to Enterprise Risk Management.

The event took place at KOC's Ahmed Jaber Oil & Gas Exhibition in Ahmadi, and was attended by several employees and specialized engineers from various operations-related departments, particularly from the Drilling Engineering Group.

The event began with pre-recorded video messages from the CEO and several DCEOs, as well as TL Enterprise Risk Management, Mishal Al-Mishwat. It also featured several presentations addressing issues related to enterprise risk management.

The event hosted prominent speakers, including former Minister of Public Works and Electricity, Dr. Amani Buqammaz, who is an Assistant Professor at Kuwait University, and Technical Consultant and Information Security Expert, Rolan Abi Najm.

At the conclusion of the event, the CEO honored the organizers and speakers of the event, as well as several members of the Enterprise Risk Management Team.

KOC Holds Fifth Production Assembly

Featuring open discussions aimed at finding solutions, enhancing performance, and addressing challenges

DCEO Planning & Innovation Mohammad Al Abduljaleel chaired the Fifth Edition of the KOC Production Assembly, for fiscal year 25-26 (2nd Review Session).

The event was held at the Company's Main Office, under the slogan "Shaping KOC's Production Curve", and attended by a large number of Group Managers concerned with production in the Company, as well as several Team Leaders and employees.

The meeting opened with remarks from the DCEO, who greeted the attendees and encouraged their active participation.

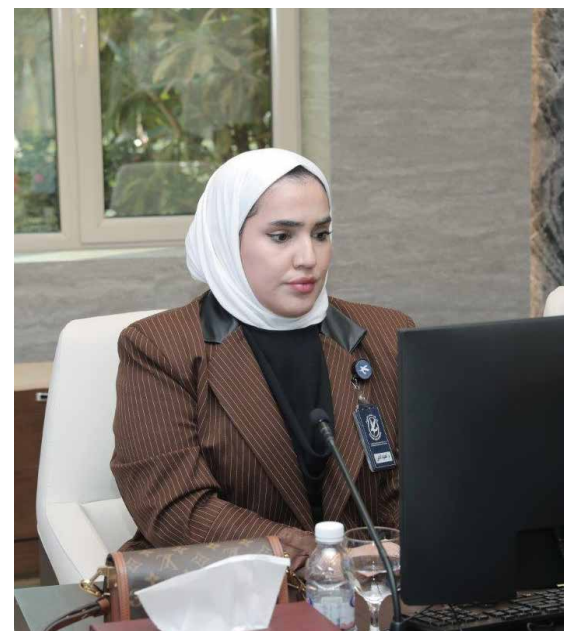

Then, the meeting began, with several presentations related to production. This included: KOC Performance and Production Integration Solution Tool by Manager Production Integration Group Abdulaziz Najaf, as well as NK (CO), NK (HO), and WK Asset Actions

& Gains to Drive Production Growth, delivered by TL Integration Excellence (N&WK), Ahmad Al-Awadhi.

Following this, S&EK Asset Actions & Gains to Drive Production Growth was delivered by TL Integration Excellence (S&EK) Hussain Shuber, while TL Integration Excellence (NK Jurassic Gas) Nawaf Al-Enizi delivered a similar presentation related to Gas Assets.

The meeting saw high engagement and an open discussion among all attendees, to find solutions, enhance performance, address challenges, and present important updates.

In conclusion, Al-Abduljaleel urged everyone to continue to exert their best efforts, in order to maintain operational excellence and continuous improvement in a manner that supports KOC's strategic objectives.

AAPG Organizes Siliciclastic Reservoirs of the Middle East GTW Workshop

Featuring an exhibition of diverse core samples from around the Arabian Peninsula

With the sponsorship of KOC, the American Association of Petroleum Geologists (AAPG) held the 6th Edition of the AAPG Siliciclastic Reservoirs of the Middle East GTW Workshop.

The event was held with additional sponsorship from ARAMCO and SLB global oilfield services company. It was attended by several KOC officials, namely DCEO Exploration & Drilling Khaled Al-Mulla on the opening day, as well as Manager New Ventures Group and AAPG Middle East President Talal Al-Adwani, both of whom delivered keynote addresses.

The three-day event saw the participation of several KOC employees, and was co-chaired by Senior Geochemist and President of Kuwait Geoscience Society (KGS) Dr. Mubarak Al-Hajeri. Its topics included Stratigraphic Architecture and Depositional Characteristics of Clastic Systems, Regional and Sub-regional Structural Controls on the Sedimentation of Clastic Systems, Integrated Clastic Reservoir Studies, Carbon Capture and Storage in Clastic Depositional Systems, Emerging Topics and Clastic Reservoir Exploration and Production,

and the Application and Management of Digital Transformation in Clastic Reservoirs.

The event saw a large audience of participants, representing several organizations from the oil and gas industry as well as academic institutions. The technical program featured different presentations and several poster sessions delivered by distinguished researchers and professionals from both academia and industry.

Daily end-of-day breakout sessions were also held, which generated active discussions among the attendees and speakers surrounding topics aligned with each day's technical program. A diverse collection of Core samples was also exhibited, originating from around the Arabian Peninsula.

On the sidelines of the workshop, participants toured KOC's Ahmad Al-Jaber Oil & Gas Exhibition, where they experienced its unique interactive displays that illustrate the history and development of Kuwait's oil industry. The event concluded with a dinner and a ceremony honoring the organizers.

KOC Hosts Ahmadi Expo for Small to Medium Businesses

Inaugurated by H.E. the Governor of Ahmadi, showcasing various local products & projects

Under the patronage and with the attendance of H.E. the Governor of Ahmadi, Sheikh Humoud Jaber Al-Ahmad Al-Sabah, KOC hosted the Ahmadi Expo for Small to Medium Businesses – 2025, in cooperation with Ahmadi Governorate.

The event, which was held over three days at the KOC Tent in Ahmadi, was inaugurated by H.E. the Governor, who was received by Manager Public Relations & Information Group at the Company, Mohammad Al-Basry, TL Information Bedor Sayed Omar, and TL Public Relations Yousef Al-Kanderi. Together, they toured the booths and learned about the products and offers on display.

The expo featured various booths, selling different types of clothing,

food and beverages, bukhour and perfumes, specialized handicrafts, skincare products, children's toys, jewelry, artworks, flowers, carpets, as well as a special booth from ICAN (Integrated Care Association for Special Needs), where special needs individuals presented their products and creations.

It also included an outdoor area for children's amusement and scientific activities.

This event comes within the framework of KOC's continuous support of small and medium local businesses, and serves as an example of the ongoing successful collaboration between Ahmadi Governorate and the Company in all that serves the wider community.

KOC Holds Coordination Meeting with the PART

Discussing technical aspects of bridge construction and their application in Company operations

Within the framework of enhancing cooperation and joint coordination with government sectors, KOC's Drilling & Well Workover Engineering Group, in collaboration with the Company's Local Relations Team, held a coordination meeting with the Public Authority for Roads and Transportation (PART) regarding the Sheikh Jaber Al-Ahmad Al-Sabah Causeway project. The meeting aimed to exchange information and expertise on the matter.

The meeting was chaired by Manager Drilling & Workover Engineering Group Haitham Al-Mayyan, who welcomed the attending PART representatives and KOC employees. He expressed his hope that the meeting would yield the desired results.

During the meeting, several technical aspects were discussed, with the aim of benefiting from the Authority's expertise in bridge construction.

The challenges faced in the Sheikh Jaber Al-Ahmad Al-Sabah Causeway project and the temporary side bridge, both of which are marine bridges in the State of Kuwait, were also addressed. The possibility of utilizing this knowledge and expertise for future maritime projects undertaken by the Company was also explored.

Meanwhile, TL Drilling & Workover Operational Support, Mohammad Al-Salamin, gave a brief overview of some future plans in this context.

Representatives from the Public Authority, Engineers Ahmed Al-Jalijel and Alaa Dashti, demonstrated fruitful cooperation by providing precise responses to technical inquiries. They also expressed their sincere gratitude for the invitation to the meeting and emphasized the Authority's commitment to providing KOC with all the necessary support for its projects. This, they affirmed, would contribute to the success of national projects and serve the public interest.

Al-Jalijel and Dashti also shared brochures related to the Sheikh Jaber Al-Ahmad Al-Sabah Causeway project with the attendees, which included some relevant details and photographs.

KOC representatives who participated in the meeting included TL Local Relations Abdulaziz Hamada, TL D&WO Engineering (II) Naser Al-Barazi, TL D&WO Contracts Management Najeeb Abdullah, in addition to Chief PR Officer in the Local Relations Team Hussein Taqi, Senior D&WO Engineers Mahdi Nawab, Ahmed Qassim, Bader Al-Sumait, Haya Al-Sharah, and Sara Al-Sufuran, TPL Drilling Specialist Marwa Al-Ghanim, and D&WO Engineer Abdullah Al-Assousi.

KOC and SPE Organize “Transforming the Energy Digital Ecosystem” Symposium

Aimed at advancing Digital Transformation and AI across the oil and gas sector

In collaboration with KOC, the Society of Petroleum Engineers (SPE) organized a symposium on “Transforming the Energy Digital Ecosystem”, chaired by Manager GFD Group at KOC Mohammad Al-Bahar, who also serves as Chairperson of the SPE Kuwait Section.

The two-day event, which was held at the Regency Hotel in Rumaithiya and sponsored by SLB global oilfield services company, focused on accelerating digital transformation and AI across the oil and gas sector. It brought together several KOC Group Managers and Team Leaders, as well as industry leaders, technology innovators, and decision-makers.

The symposium aimed to explore how digital integration, advanced analytics, and emerging technologies are unlocking new value and shaping the future of the energy industry.
